Become better educated about the **POLITICAL PROCESS** and **DEVELOP RELATIONSHIPS** with your elected officials.

Visit with your **ELECTED OFFICIALS** and be a part of the action at the Capital.

Become familiar with the state Capital and the lobbying process!

You do not have to be an experienced lobbyist or advocate to participate! Make your voice heard on key issues in long-term care.

The most important aspect of participating in Advocacy Day is to be flexible and very patient. Critical issues often arise interrupting appointments, canceling committees, and wreaking havoc with the best-laid plans. It is an ever-changing unpredictable environment. Be prepared to go with the flow.
